# FINANCIAL SUMMARY

Welcome to the 2nd **monthly financial report**; we will share our financial performance from **November 1st until December 10th, 2023**.

This concise overview provides transparent insights into our financial performance, **real products and services, and** future goals and projections for the next six months.

# INCOMING REVENUE

## // REVENUE BREAKDOWN

Our **total earnings reached \$21,016** locked within and flowing into the **Eternal Engine**:

- **\$2966** (NFT Minting)
- **\$2377** (Lucky Sh!t NFT Raffle)
- **\$4853** (Polygon Land Miner)
- **\$10819** (Crypto Mischief brand)

The expansion of **Polygon Land** remains a lucrative source of revenue for the **SCC** along with the Crypto Mischief brand. Notably, **strategic channel partnerships** have yielded substantial returns, exceeding ten thousand dollars, a testament to our dedicated efforts. Furthermore, the introduction of our **raffle app** has significantly **boosted the mint rate** of the NFT collection by over **50%**. These achievements underscore our commitment to sustainable growth and financial success. Additionally, the **favorable market** improvements have further contributed to our positive trajectory, as detailed in this comprehensive financial report

# ETERNAL ENGINE

After our third Governance vote, the Eternal Engine diversified into higher-risk pools to boost income. The **Uniswap BTC/ETH pool, our core asset, remains central.**

With **\$49,088 in the engine**, allocating **75% in Uni-swap** condensed liquidity at around **40% APR** yields approximately **\$15,000 annually**.

Simultaneously, utilizing the remaining **25% in high-risk** positions with around **200% APR** generates approximately **\$24,600 annually**.

This diversified approach, as voted on by our DAO, **maximizes potential earnings**, totaling approximately **\$39,600 annually**.

Strategic allocation optimizes returns, while continued incoming revenue builds positions. *This showcases the Eternal Engine's robust income potential.*

## OUTGOING EXPENSES

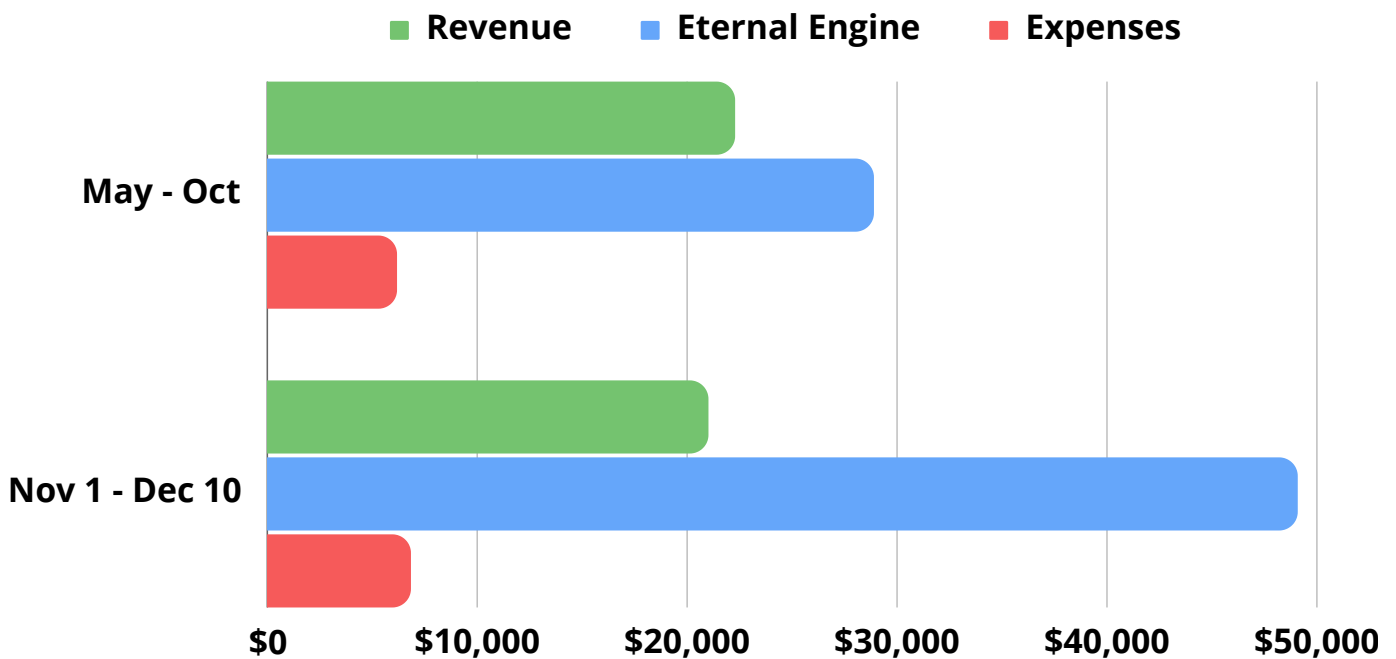

In November, the SCC incurred modest expenses. We distributed our **2nd airdrop which totalled of 8013 MATIC (equivalent to \$6,480)**. In addition, **405 Matic (\$363)** was **injected** into Polygon Land. We expect higher expenses in December 2023 as we begin to audit and promote **Arbitrum Land**.

This brings the total expenditure to **\$6843**

AIRDROP DATE	NFT	MATIC AIRDROP	MATIC PER NFT	\$ PER NFT
OCTOBER 15TH	426	6235.0	14.6	\$7.46
NOVEMBER 15TH	517	8013.0	15.5	\$14.72
DECEMBER 15TH				
JANUARY 15TH				

## OVERALL PERFORMANCE

In November, we achieved a **69.8% percentage growth** in our treasury called the Eternal Engine to **\$49,088**, with earnings amounting to **\$21,016**; we directed **\$6,843** towards Polygon Land Injections and NFT holder airdrops, reflecting responsible financial management. We anticipate **further growth** and are poised to launch the new Arbitrum Land product in December or January. This report highlights our **strong financial standing**, strategic investments, and ongoing dedication to enhancing NFT holder value.

The month has proven exceptionally fruitful, presenting both triumphs and challenges that put our team's skills to the test. A significant event included the migration of our NFT collection due to the discovery of a vulnerability in the third web code. Despite these challenges, we look forward to the opportunities that December holds. I would like you to stay tuned for our upcoming **'12 Days of Christmas' NFT promotional event** when raffle winners get **seasonal NFTs** and **surprise bags** of crypto tokens bundled with their SCC NFT. We appreciate your continued support and enthusiasm for our journey.

# SIX MONTH PROJECTIONS

---

We anticipate our treasury exceeding **\$200,000** in our strategic six-month roadmap projection.

The launch of **Arbitrum Land** and the ongoing development of **Polygon Land** will double NFT airdrop distributions.

Additionally, **Pulse Land and Base Land** developments will be nearing completion. With the increased airdrop value and the release of our innovative NFT minting Raffle game 'Lucky Sh!t,' our NFT holder base will surpass **2,000 holders**.

These achievements will signify our continuous growth and strategic advancements, positioning us for a robust future in the digital landscape and solidifying our position as one of the **most significant NFT collections on Polygon**.

# SIX MONTH ROADMAP

---

- // **Eternal Engine** goes Multi-Sig Wallet **(done)**
